

JOINT PHOTOGRAPHIC INTELLIGENCE BRIEF

ARMY-NAVY-CIA

INSTALLATION: Blimp-like Objects  
WAC NUMBERS: 203, 246, 250, 325, 381

BRIEF NO.: JB-16-58  
DATE : 30 June 1958

REMARKS:

25X1D 25X1D

Five unidentified blimp-like objects, located in different sections of the USSR as indicated above, appear on [redacted] A similar object near Tsing-Tao, China, appears on [redacted] photography. While these objects have all been previously reported, they are summarized in this brief.

25X1D

25X1D 25X1D

These objects, each located within a revetment, are teardrop-shaped, have no apparent fins, and are probably either semi- or non-rigid. They vary in length from approximately [redacted] to 100 feet, and in width from [redacted]. They may be used as platforms for communications equipment, meteorological equipment, or radar, or for visual observation, or may serve as restricted area warning markers.
